The amendment received 2/22/06 has been entered and claims 4-7 are currently pending in this application. Please update the specification regarding related applications.

It is noted that none of the references of record teach or fairly suggest the presently claimed sequence for the function claimed.

In view of the amendments to the claims and arguments presented, the rejections of record under 35 USC 102(b) and 103(a) over Eyre are hereby withdrawn.

Claims 4-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Each of the following applies in all occurrences.

There are a number of instances of lack of antecedent basis in the claims, in claim 4 line 2, "the amount" for example. Dependent claims must begin with a definite article. The preamble of claim 4 may be intended to read "A method of measuring a rate". In claim 4 line 4, there is inconsistency between the two antibodies where it would appear both must be specifically reactive. In claim 4 line 5, there may be a typo regarding the collagen type.

Art Unit: 1655

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nakamoto (JP 9-21803) teaches determining type II collagen with a sandwich assay.

Hollander (WO 98/35235) teaches type II collagen assays.

Qvist (WO 95/08115) teaches collagen assays.

Dusemund (J of Immunological Methods) teaches type II collagen assays.

Kobayashi (Am Rheum Dis) teaches type II collagen assays.

Shinmei (Osteoarthritis and Cartilage) teaches type II collagen assays.

Te Koppele (6,010,863) teaches sandwich collagen assays.

Fledelius (6,107,047, 6,300,083) teaches collagen assays.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
